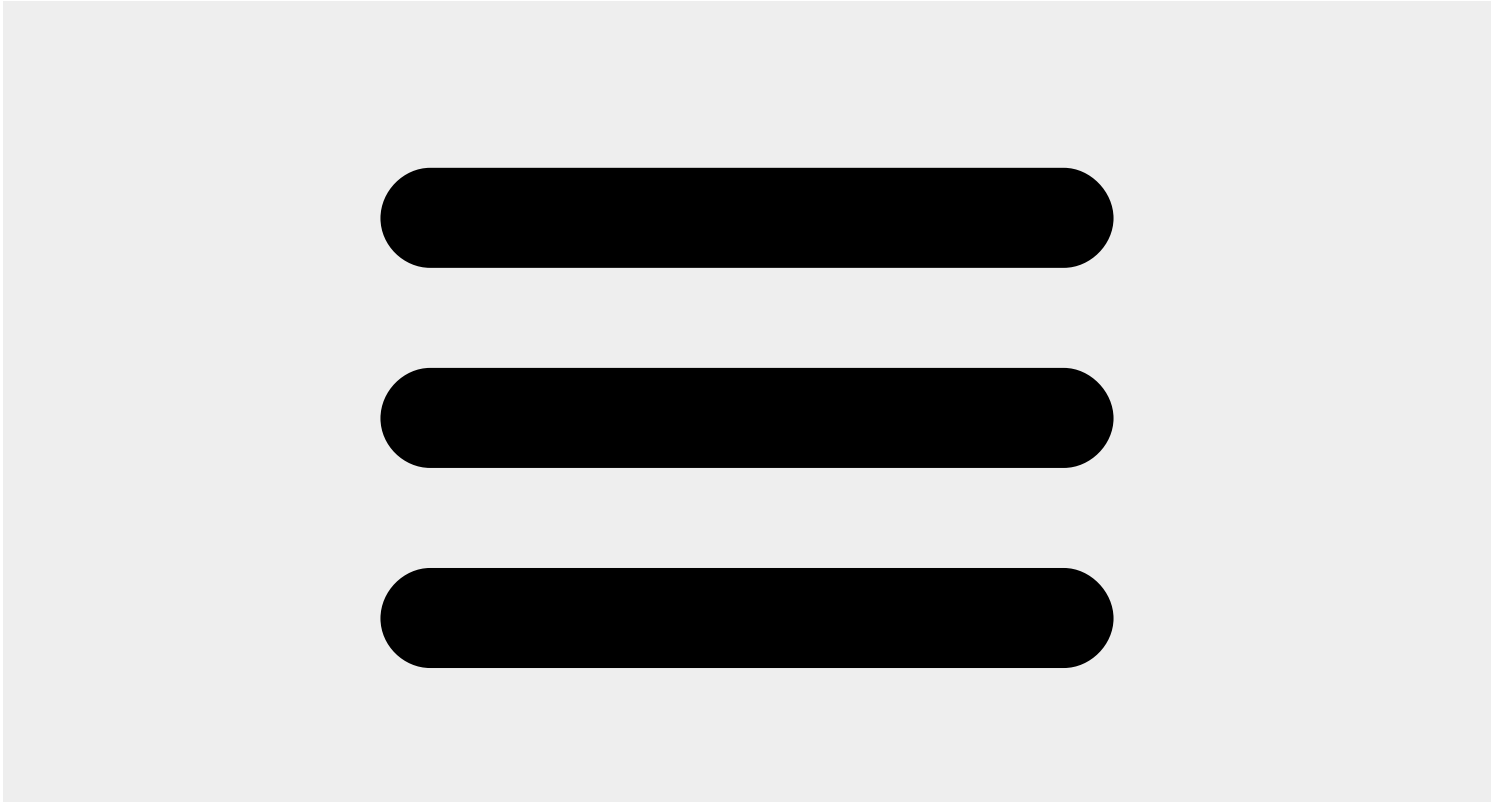
BOBCAT FIRE PROJECT

Posted on February 23, 2021 by IACS Admin Team



Institute for Asian Crime and Security (IACS) continues to care for our first responders during California wildfires. Together partnership with Global Federation of Chinese Business Women Southern California, we visited Santa Fe Dam Bobcat Fire Unified Command, Arcadia Fire Station and Pasadena Fire Station with our gratitude for their service.
2020 has seen significantly more fires and acres burned than experienced in 2019 or even over the 5 year average. Firefighters have already battled this year over 8,100 wildfires that have burned over 4 million acres. California has broken almost every record there is to break, and continues to see increased wildfire activity.
